### **Landscape Designer & Irrigation Specialist Receives Certification September 2012**

WAYNESVILLE, N.C. (September 6, 2012) – Brian Boyd, landscape designer and irrigation specialist, has received his certification from the North Carolina Irrigation Contractors' Licensing Board. Boyd participated in rigorous courses, exams and practice with the North Carolina Irrigation Contractors' Licensing Board to receive his certification. Boyd is one of only a few contractors to receive his certification in the installation and repair of irrigation systems for commercial and residential work in all of western North Carolina.

The North Carolina Irrigation Contractors' Licensing Board was established by legislation which became effective January 1, 2009. The board oversees the licensing of Irrigation Contractors in North Carolina. The purpose of licensure is to protect the public health, safety and welfare and to promote the efficient use of water. The new licensure law became effective on June 30 2009. The Board operates as an independent entity under the North Carolina Governor's Office. For more information, visit: <http://www.nciclb.org/>. According to the North Carolina licensure law, "no person shall engage in the practice of irrigation construction or contracting, use the designation 'irrigation contractor', or advertise using any title or description that implies licensure as an irrigation contractor unless the person is licensed as an irrigation contractor. All irrigation construction or contracting performed by an individual, partnership, association, corporation, firm, or other group shall be under the direct supervision of an individual licensed by the Board."

Brian Boyd is a 2000 graduate of North Carolina State University with a Bachelor of Science degree in Horticulture and Landscape Design. Boyd had previous landscaping work with WNC Landscaping prior to his degree at North Carolina State, and came on full-time as the lead designer in waterfall and pond installation work, as well as with irrigation systems. Boyd has nearly 20 years experience in landscaping work with WNC Landscaping and Nursery, Inc. Owner, Charles Boyd, states, "Brian is a talented and diligent landscape designer. He puts great attention to detail and works hard to ensure that his work is superior in every way." Boyd will work to participate in ongoing educational credits to maintain his certification per the guidelines with the North Carolina Irrigation Contractor's Board.

WNC Landscaping is located in Waynesville and provides quality, licensed, professional landscaping and has done so for 40 years for all of western North Carolina. WNC Landscaping offers custom designs for exterior landscapes, pond and waterfall design and installation, as well as irrigation systems installation and repair. For more information on WNC Landscaping, visit [www.wnclandscaping.com](http://www.wnclandscaping.com) or call 828.926.3224.
